

▶ INTRODUCTION

The Test of English for International Communication (TOEIC) is used to measure the ability of non-native speaking people to use English in everyday work situations. With three million test takers each year, TOEIC is the standard for workplace English language proficiency.

ACT360 Media offers a complete TOEIC training solution for corporate and institutional customers. Our suite of TOEIC applications offers multinational customers an effective, measurable program to improve overall English proficiency. ACT360 provides services in over 60 countries and corporate customers include Renault, Nissan and Petrobras Brazil.

▶ BENEFITS

- Proven, high-quality course developed by Canadian language experts.
- Complete training solution with personalized Trainer, Beginner Course, and Practice Tests.
- Flexible integration with Saba, Docent, and custom LMS systems.
- Detailed management reporting on usage and scoring.
- Hosted ASP service requires minimal IT support and training.
- AICC compliant.

Business English Solutions

▶ Trainer for TOEIC

Developed for corporate training environment where practical English for communication is required. The program assists students to identify their weaknesses and delivers lessons to target those areas.

- Complete explanation and review with every question
- Post Test to measure improvement

▶ Beginner Course for TOEIC

Developed for beginner users with limited English skills. The program assists beginners with developing 30 key listening and reading skills necessary for everyday business usage.

- 60 day suggested usage
- 30 lessons, 2400 exercises focused on commonly used listening and reading skills
- 600 key vocabulary words with definitions and detailed usage examples.
- Complete explanation and review

▶ Practice Test / Assessment

Three full practice tests for assessment and test simulation of the actual TOEIC test.

- 200 questions that simulate official TOEIC test with running two hour timer
- Complete explanation and review
- Graphical analysis and reporting

Business English Solutions

▶ CORPORATE INTEGRATION

ACT360's TOEIC applications are hosted on state-of-the-art servers in Vancouver, Canada at a secure co-location facility. The applications are delivered through ACT360's TestDEN Content Servers.

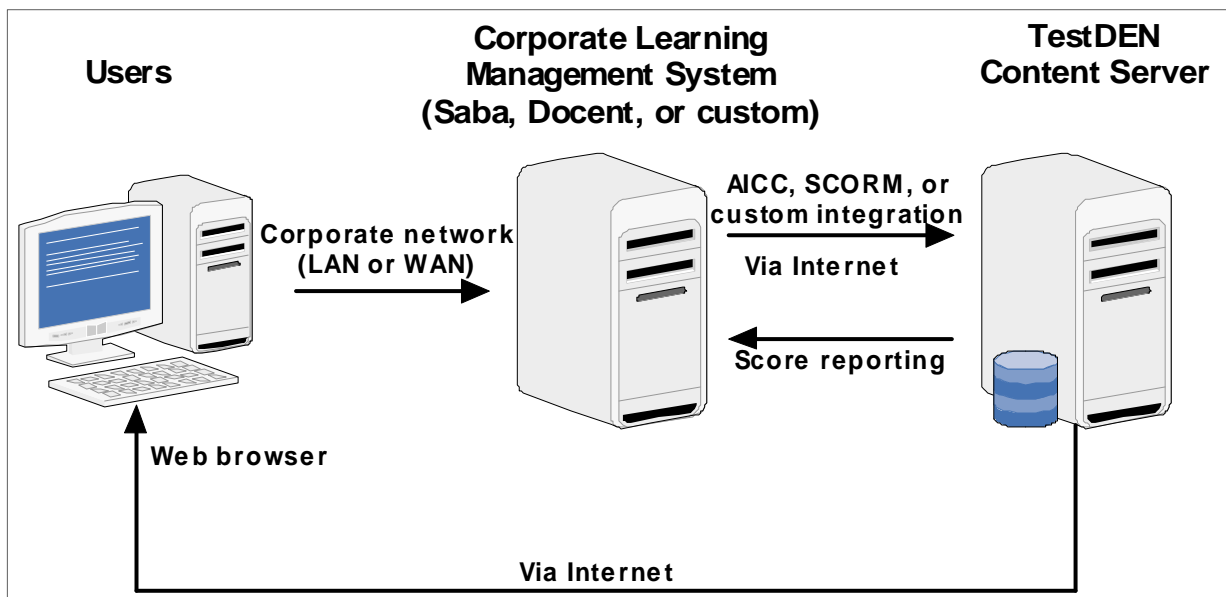

Corporate customers may choose to integrate the TestDEN Content Server with their existing Learning Management Systems. Saba, Docent, and custom LMS systems are all supported. All TOEIC applications are integrated as part of a single URL pointing to the TestDEN Content Server.

Sound files may be hosted at a local server to provide optimal download speeds for corporate users.
